

# FUTURES

## FUTURES welcomes nearly 100 new artists to its platform

**FUTURES is thrilled to announce the new emerging visual artists selected for 2023. The 18 FUTURES platform members selected a promising group of almost 100 artists with diversified backgrounds and creative visions, who will have access to an unprecedented network of professionals, markets and audiences. In total, FUTURES now supports around 450 artists.**

Each year, FUTURES platform welcomes a diverse group of emerging artists from around the world to participate in a long-term program that provides numerous opportunities for them to develop their projects and advance their careers. Through the program, they will have the opportunity to connect with other professionals in the art world and build valuable relationships, fostering collaboration and creating opportunities for cross-cultural exchange.

This collaborative approach is helping to build a stronger European art network and create a more vibrant and dynamic art world that reflects the diversity and creativity of Europe's many cultures and communities. We are excited to support these artists as they take the next steps in their careers and look forward to seeing the impact they will have on the European art scene.

Meet the new group of emerging artists who joined the platform in 2023:

FUTURES is co-funded by the Creative Europe Programme of the European Union.

### EDITOR'S NOTES

#### About FUTURES

FUTURES is a Europe-based photography platform bringing together the global photography community to support and nurture the professional development of emerging artists across the world. Since 2017, it aims to add long term value in empowering early and mid-career photographers – launching initiatives to promote their work and granting them access to an unprecedented network of professionals, markets and audiences. FUTURES seeks to encourage new and adventurous ways of enhancing the vital relationship between artists and the industry by creating an ecosystem that allows and stimulates cross-pollination, whilst simultaneously becoming the go-to source for emerging photography worldwide.

FUTURES works as a growing international network of influential organisations operating in the field of photography, bringing together a wealth of resources, expertise and talent programmes to pool from. Each year, they nominate a group of rising photography talents to join the platform and co-host a series of events to increase their capacity, mobility and visibility. Synchronously, the platform aims to reveal new and exciting photographic approaches, by celebrating a diversity of stories, encouraging upcoming artists to present their most challenging work, and providing insights into their world and most recent projects.

**FUTURES members**

The platform currently draws from and collaborates with a consortium of the following art institutions across Europe to amplify emerging talents in photography: CAMERA - Centro Italiano per la Fotografia (IT), Centre Photographique Rouen Normandie (FR), Copenhagen Photo Festival (DK), Triennial of Photography Hamburg (DE), Der Greif (DE), FOMU (BE), FOTODOK (NL), Fotofestiwal Lodz (PL), Fotogalleriet (NO), Fotograf 07 (CZ), Organ Vida (HR), ISSP (LV), PHotoESPAÑA (ES), Photolreland (IE), Photo Romania Festival (RO), Bienal Fotografia do Porto Ci.Clo (PT), Robert Capa Contemporary Photography Center (HU), Void (GR).  
Research member: Eurokleis s.r.l. (IT)
