FOTOSKOLER

Danmark har en stærk uddannelsestradition inden for fotografi – og mediets tekniske, narrative og kunstneriske aspekter bliver vægtet forskelligt på uddannelserne. Copenhagen Photo Festival ønsker derfor at give plads til afgangsudstillinger fra alle de forskellige typer af fotouddannelser.

PHOTO SCHOOLS

Denmark has a strong tradition when it comes to educational programs within photography – and the technical, narrative, and artistic aspects of the medium are weighted differently among the programs. That is why Copenhagen Photo Festival wishes to host graduate exhibitions from all the different types of programs.
