Satellitudstillinger
Satellite Exhibitions

Kultur- og kunstinstitutioner i København har bidraget til etableringen af en ny platform for samtidsfotografi i Danmark med deres dybe engagement og brede deltagelse under festivalen. Satellitudstillingerne var spredt ud over væsentlige udstillingssteder, museer og gallerier i København og udforskede fotografiets forskellige facetter med udstillinger, artist talks og teoretiske debatter.

Thanks to their high level of commitment and participation during the festival, the various cultural and art institutions in Copenhagen have contributed in establishing a new platform for contemporary photography in Denmark. The satellite exhibitions were hosted by significant venues, museums and galleries all over Copenhagen, exploring the various facets of photography through exhibitions, artist talks and theoretical debates.
