De uafhængige
The Independent

Danmark har en underskov af talentfulde fotografer. Mange deltog på eget initiativ under festivalens paraply og etablerede deres egne udstillinger mange forskellige steder i København – kontorhoteller, caféer, restauranter, kirker, klubber, barer, butikker og rejsebureauer. De uafhængige fotografer var således med til at gøre samtidsfotografiet synligt i mange afkroge af København, og beværtninger mm. blev rigere på visuelle oplevelser og et nysgerrigt publikum.

Denmark is full of up-and-coming talents in the field of photography. Many of them participated on their own initiative and, within the framework of the festival, set up their own exhibitions in many different types of venues – from office hotels, cafés and restaurants to churches, clubs, bars, shops and travel agencies. Thus the independent photographers contributed considerably to making contemporary photography visible all across Copenhagen, and the venues benefited by gaining visual experiences and attracting interested audiences.
